COOK PARTY IN MID-POLAR BASIN

Day After Day Strong Winds and Fractured, Irregular Ice Increased the Difficulties of Progress—Often, in Sheer Exhaustion, the Party Bivouacked in the Lee of Hummocks—The Overworked Body Called for Sleep but the Mind Refused to Close the Eye.

NINTH INSTALMENT

THE CONQUEST OF THE POLE.

By Dr. Frederick A. Cook.

(Copyright, 1909, by the New York Herald Company. Republished in Canada in accordance with the Copyright Act. Copyright in Mexico under the laws of the Republic of Mexico. All Rights Reserved.)

Awakened in the course of a few hours by drifts of snow about our feet. It was noted that the wind had buried under the weak spots through the snow wall. Still, we were bound not to be cheated out of a few hours' sleep, and with one eye open we turned over. Later I was awakened by falling snow flakes.

Forcing my head out of the ice-encased hood, I saw that the dome had been swept away and that we were being buried under a dangerous weight of snow. In some way I had tossed about sufficiently during sleep to keep on top of the accumulating drift, but my companions were out of sight and did not respond to a loud call.

After another search a blowhole was located, and in response to another call came Eskimo shouts. Violent efforts were made to free their heads, but the snow settled on their tighter with each tussle.

I was surprised a few moments later as I was digging their breathing place open to feel them burrowing through the snow. They had entered the bag and had begun to move and had emerged with shirt and pants on, but with bare feet.

After a little more digging their boots were uncovered, and then, with protected feet, the bag was freed and placed to the side of the igloo. I rolled out to their side in my bag.

Move On, Refreshed.

The air came in hissing spouts, like jets of steam from an engine, but soon after noon of the 29th the ice under our heads brightened. It became possible to breathe without being choked with floating crystals, and as the ice about the facial furas was broken a little blue was detected in the west.

The dogs were freed of snow entanglements and fed, and a shelter was made in which to melt snow and make tea. A double ration was eaten and the sleds began to move again.

Soon the sun burst through the separating clouds and raised icy spires in towers of glitter. The wind then ceased entirely and a scene of crystal glory was laid over the storm swept fields. With full stomachs, fair weather and a much needed rest we moved with inspirations anew. Indeed, we felt refreshed as one does after a cold bath.

The pack had been much disturbed and considerable time and distance was lost in seeking a workable line of travel. Camping at midnight, we had only made nine miles for a day's effort.

Awakening in time for observations on the morning of the 30th, the weather was found beautifully clear. The fog, which had persistently screened the west, had vanished, and land was discovered at some distance west, extending parallel to the line of march. The observations placed us at latitude 84 deg. 50 min., longitude 95 deg. 36 min.

In the occasional clearing spells for several days we had seen sharply defined land clouds drifting over a low band of pearly fog, and we had expected to see land when this veil lifted. We had, however, not anticipated to see so long a line of coast. The land as we saw it gave the impression of being two islands, but our observations were insufficient to warrant such an assertion. They may be islands, they may be part of a larger land extending far to the west. What was seen of the most southerly coast extends from 83 deg. 20 min. to 85 deg. 31 min., close to the 102d meridian.

This land has an irregular mountainous sky line, is perhaps eighteen hundred feet high, and rises in its upper reaches the high lands of Helberg Island. The lower shore line was at no time visible.

From 84 deg. 23 min., extending to 85 deg. 11 min., close to the 102d meridian, the coast is quite straight. Its upper surface is flat and mostly ice capped, rising in steep cliffs to about twelve hundred feet. The lower surface was so distinctly seen that we were unable to detect glacial streams or ice walls. Both lands were hopelessly buried under accumulated snows. We were not able to see foot on the newly discovered coast, for we believed, as proved by later experience, that these were the earth's northernmost rocks, but the pressing need for rapid advances in the aim of our mission did not permit of detours. Resolutions were reinforced and energy was harbored to press onward for the pole in an air line.

Fair Marches Made.

Early observations, however, indicated an easterly drift, and a westerly course must be continuously forced to counterbalance the movement. A curtain was drawn over the land in the afternoon of March 31st, and we saw no more of it. Day after day we now pushed along in desperate northward efforts. Strong winds and fractured, irregular ice increased the difficulties; progress was slow.

In one way or other we managed to gain a fair march between storms during each twenty-four hours. In an occasional spell of stillness, enlarges spread screens of fantasy out for our entertainment. Curious cliffs, odd shaped mountains and lesser ice walls were displayed in attractive colors. Discoveries were made often, but with clearer horizon the deception was detected.

On April 3 the barometer remained steady and the thermometer rose. The weather became settling and clear. The pack became a more permanent glitter of color and joy. At noon there was now a dazzling light, while the sun at midnight sank for but a few moments under a persistent northerly haze, leaving the frosted blues bathed in noontide splendor.

In these days we made long marches. The ice steadily improved. Fields became larger and thicker, the pressure lines less frequent and less troublesome. Nothing changed materially; the horizon moved, our footing was seemingly a solid crust of ice, but it shifted eastward; all was in motion. Often we were too tired to build snow houses, and in sheer exhaustion we bivouacked in the lee of hummocks. Here the overworked bodies called for sleep, but the mind refused to close the eye.

In a Lifeless World.

There was a weird attraction in the

odist church served a supper in the vestry Thursday evening. The hostesses were Mrs. Lina Booth and Mrs. Grant Hanner.

The weekly prayer meeting of the M. E. church was changed this week from Wednesday evening to Friday evening. Last evening the topic was "Preserving Prayer," Luke 13:12.

COLUMBIA

Miss Addie Isham has completed her vacation of several weeks spent with her parents, Mr. and Mrs. Henry C. Isham, and returned to Springfield, Mass., where she is training at the City Hospital for nurses.

The Endeavor society held a social at the home of Mrs. Mitchell Friday night. Mrs. Mariette Rice of Greenfield, Mass., is visiting the family of her son, Howard Rice.

Jewett H. Collins leaves today (Saturday) for New Haven, where he is

to work for the Southern New England Telephone company.

EAST WILLINGTON

Mr. Ingalls and his wife of Brooklyn came in their automobile Wednesday to superintend the cutting of lumber on Mrs. Baldwin's lot. There are keeping house in their house on wheels, a very cozy place to live in.

Elmer Squires, who was thrown out of his wagon, is gaining slowly. Mrs. Royce is keeping house in Mrs. Baldwin's house while teaching the East Willington school.

Several from here attended Stafford fair.

HOWARD VALLEY

Miss Julia McLoughlin of Brooklyn was the guest of Mrs. Henry Humes over Sunday.

Mrs. Bertha Bates and daughter,

Helen, of Moosup, were visiting at Mrs. L. F. Hawks' over Sunday.

Mrs. Laura Hawks returned to her home here Saturday after visiting in Moosup.

WASHINGTON COUNTY, R. I.

HOPKINTON

Destruction of Nichols & Langworthy Plant Decreases Valuation Nearly \$82,450.

Several neighbors gathered at the home of Mrs. A. Irene Mills Friday evening to watch the opening of a night-blooming cereus bud. The fully blossomed flower measured one foot from outside tip to tip.

A new organ was put in the Seventh-day Baptist church last Friday for use in Bible school and prayer meetings.

The Saturday evening prayer meeting was omitted in the Seventh-day Baptist church last week, as no one desired to attend the supper of the Loyal Workers at Rockville.

Oronas Edwards was a business caller in this village Monday afternoon. Services were omitted in the First Day Baptist church Sunday afternoon on account of the weather.

The book for the use of the collector of taxes for 1909 has been completed and placed in the hands of the treasurer. The value of real estate for this year is \$1,190,800; personal property, \$390,200; bank stock, held by non-residents, \$10,200; total, \$1,621,200. The decrease in valuation from last year is \$82,450, mostly caused by the destruction by fire of the plant of Nichols & Langworthy Machine Co.

The total amount of taxes to be collected this year is \$19,627.38, after deducting the amount of \$142.62 rebated to soldiers, sailors and their wives or widows. The decrease in amount of taxes collectable from 1908 is \$1,127.74. Henry J. Wheeler is collector as last year and will begin work soon after October 1.

Hon. E. R. Allen attended the meeting of the directors of the First National Bank of Hopkinton, at Hope Valley, Monday.

ARCADIA

John C. Lewis of Apopkaug visited his homestead over Sunday.

New guide boards have been erected in this town, Richmond, R. I. Several persons from this place attended the auction held at William E. Barber's, Woody Hill, Wednesday.

The fall term of school in the Lewis district is being taught by the same teacher, Mrs. E. H. Triff of Pine Hill.

Adelbert Strange and family who have been residents of this place for many years, moved to Pawtucket, R. I.

RICHMOND

Annual Outing of Clark's Mills W. C. T. U. to the Beach—Peach Supper Served.

Clark's Mills W. C. T. U. enjoyed an outing at Charlestown beach Wednesday, occupying the cottage of Jerome Tucker. These outings have been held to and from the beach, and grown to be annual affairs. The party was conveyed in the barge Chaffee, with Herbert Chaffee driver. The trip both to and from was very much enjoyed. At noon a luncheon was served, to which all came with good appetites. The next meeting will be held Tuesday, October 5, at Kenyon.

A peach supper was served in the vestry of the Queens River Baptist

church at Usquepaug Thursday evening.

Miss Jenny Ennis, who has been visiting friends at Cliffmore, has returned to Shannock.

School began at Beaver River district Monday with Miss Mabel Kirby of Westport, Mass., teacher.

Mrs. W. J. Nichols and daughter, Florence of White Rock, spent Sunday with Mrs. Nichols' brother, B. H. Moore and family.

Miss Katie Perkins of Pawtucket is spending a few days with Mrs. B. H. Moore.

USQUEPAUGH

Temperance Sunday—Golden Wedding Celebration.

Temperance Sunday was observed at the church Sunday morning.

J. S. Lamond went to Providence last Thursday to attend his brother's funeral.

Miss Sullivan is visiting her sister, Mrs. Mary McConnell.

The Richmond town officials and those hoping to be had an elaborate dinner at York's pond Sunday.

Charles Fuller of Wyoming was a caller in the village of Shannock.

Mr. and Mrs. Alfred Cooke observed their golden wedding Saturday afternoon and evening. There were 103 present.

Mrs. Saxer, who has been visiting at Mr. Cooke's, has returned home.

Ether Bagley and Archie Kenyon are attending Wakefield High school.

Helen Lamond, Annie Kenyon and Amos H. Kenyon are attending R. I. C. Miss Lamond and Mr. Kenyon are seniors, Miss Kenyon a junior.

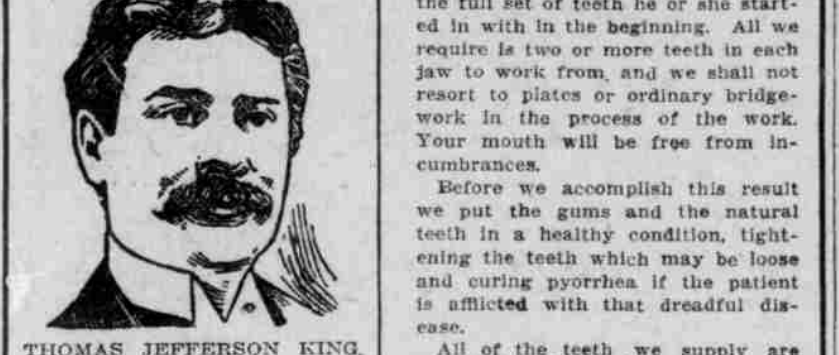

Miss Eva Franklin is teaching the district school here in the village.

Gideon Palmer was at Hope Valley Monday.

The church had a peach supper on Thursday evening.

DR. King's Restoration Method

What It Does for Toothless People

THOMAS JEFFERSON KING, D.D.S., Originator of Dr. King's Restoration Method for the natural restoration of teeth—originator of the King Safe System of Painless Dentistry and Inventor of the "Natural Gum" and "Teeth, Etc., Etc." All rights reserved.

A PAINLESS PROCESS

An impression has gone forth that there is some surgical operation connected with this method of restoring missing teeth. Some people have written in to know if we bore down into the bone and put the teeth in on pegs!

Others have an idea we set the new teeth into the sockets where the natural teeth were originally.

It is quite natural that some unthinking people would ask such questions, and in order that they may be fully answered we will state that there is no boring, no cutting, no implantation about this method, nothing about the work that is painful while it is being done or afterward.

Patients leave the office with these teeth in place and at once begin chewing meat, eating candy, toast, or anything else with the same comfort they would enjoy if every tooth in their head had grown there.

If we couldn't promise this and make good on the promise, the Restoration Method would not be a success. It would be no better than ordinary bridgework or partial plates.

WE ARE GENERAL PRACTITIONERS

All Forms of Dentistry Treated by Experts.

While the Restoration Method is our great specialty, we are general dental practitioners as well. From the simplest filling to the most intricate piece of porcelain work, our experts are at the service of the public.

Naturally we would do such work well, much better than it could be done in a one-man office, for the operators employed here are all men of the very highest skill. They need to be to do the Restoration work. Business would not be tolerated in our office for a day, neither would dental students. We demand the finished craftsman, both at the operating chair and in the laboratory.

KING DENTAL PARLORS,

Dr. Jackson, Manager. Franklin Square, Norwich, Conn.

TOLLAND COUNTY.

GURLEYVILLE

Special Services—Mrs. Martha Hanks' Funeral.

Rev. J. F. Robertson and Mrs. Robertson, Miss Helen Pollard and brother attended the organ recital at the Methodist church in Willimantic on Wednesday evening.

G. W. Leavitt has returned from Washington, R. I., where he attended the funeral of a relative.

Mrs. Cora Dimock Tucker, from Chaplinville, is at her home at G. R. Dimock's for a few weeks' visit.

Mrs. Sarah Stoughton Hanks is the guest of relatives in Rockville and Manchester.

The Misses Nichols, from Worcester, who have been visiting at T. L. Smith's, have returned home.

A special programme of music and readings was rendered at the M. E. church Sunday evening. John Wrard assisted the choir with his violin at both morning and evening services.

Funeral of Mrs. Martha Hanks. The funeral of Mrs. Martha Hanks was held at her residence on Hanks Hill Monday. Rev. F. E. Sumner from Willard officiating, assisted by Rev. J. F. Robertson. Mrs. Hanks has been a valued member of the M. E. church here for many years, and will be greatly missed by this community.

CHESTNUT HILL.

Surprise Party for Jewett Collins—Republican Nominations.

Young friends of Jewett Collins, to the number of twenty-five, gave him a surprise party on Monday evening. Mr. Collins is to leave today (Saturday) for New Haven, where he is to enter the employ of the Southern New England Telephone company. His many friends regret his departure.

Republican Caucus. At the republican caucus on Thursday evening the following persons were in nomination for the various offices:

For selectmen: First, Samuel B. East; second, J. Lynde Porter; registrar of voters, Fred A. Hunt; town clerk and treasurer, Hubert E. Collins; assessors, William C. Robinson, 2 years, James Witter, 2 years, William A. Collins, Jr., 1 year; board of relief, Fred A. Abell, Leola J. Willis; town school committee, William H. Bliss, William C. Robinson, grand jurors, W. H. Kneeland, Charles Blackly, William A. Collins, Jr.; constables, Allison L. Frink, Eugene F. Hutchinson, William A. Green; auditors, James P. Little; tree wardens, H. W. Porter; tax collector, A. A. Latham.

It was voted to authorize the town committee to fill any vacancies that may occur on the ticket.

STAFFORDVILLE

Methodist Ladies' Society Serves Supper.

Miss Lucretia S. Ladd of Somers was the guest of her cousin, Mrs. W. E. Belcher, over Sunday.

J. W. Donahue of Providence, R. I., is employed in the Garland mill.

Mr. and Mrs. Leon Conley and family have moved into the Crawford house.

The Ladies' Aid society of the Meth-

THERE are foods for all purposes—but

Unedea Biscuit for Energy

For the brain-energy business men need; the muscle-energy workmen need; the nerve-energy housewives need; the all-round energy school children need.

A soda cracker in appearance—more than a soda cracker in goodness, freshness, crispness. Moisture proof packages.
